

WELCOME TO

UK META TOKEN

The Best Decentralized Staking Project

WHAT IS UK META TOKEN

UK META TOKEN is coming up with the newest and latest technology on the most trusted blockchain BSC (Binance Smart Chain). UK META TOKEN Token has been designed in such way to become the most useful defi token. The token burn concept will keep burning tokens from supply consistently. Whenever anyone transfer UK META TOKEN, either buy/sell/swap or transfer 0.1% of tokens will burn. Thus, the tokens supply will get lower and lower day by day. It will work as an engine to push the price and become an asset for holders.

Smart contacts with real-time crypto solutions and earning models made for beginners and pro users. The ecosystem will also include developers and resources from outside the team.

Decentralized Currency

Our network is based on a decentralized cryptocurrency that eliminates the need for a central authority and offers safe, open, and effective transactions.

Token Finance

The coins' value and acceptance are driven by the underlying economic concepts and incentive systems.

Active Community

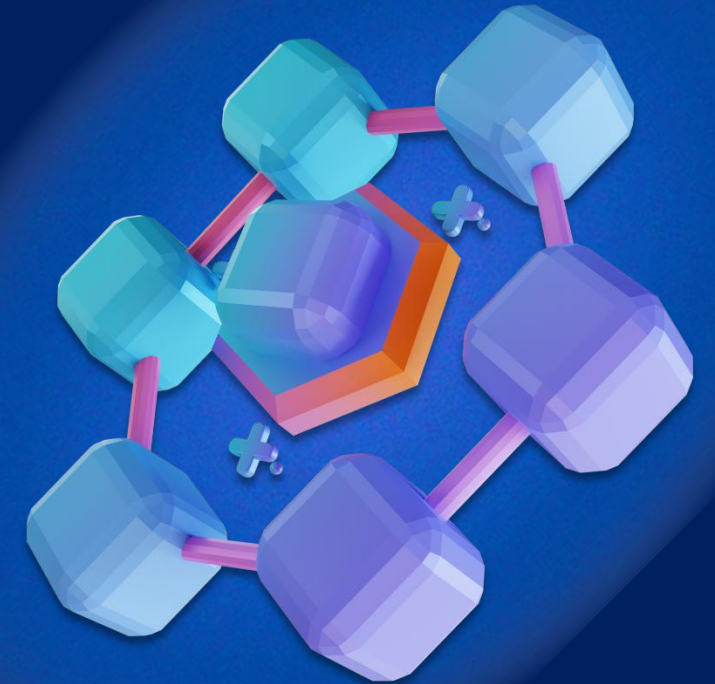

Our platform creates a dynamic and active community of investors, entrepreneurs, and developers that support the ecosystem's continued expansion and innovation.

BTC BLOCKCHAIN TECHNOLOGY

The Bitcoin blockchain is a digital currency system used to manage transactions of cryptocurrencies such as Bitcoin. It is a completely digital and secure ledger in which all transaction information is stored cryptographically.

Bitcoin blockchain had some drawbacks, such as:

- **Transaction Speed:** There were limitations in the capacity of the Bitcoin network, which could cause delays in processing transactions.
- **Energy Use:** Bitcoin mining uses a large amount of energy, which can have a negative impact on the environment.
- **Scalability:** The Bitcoin network had limitations in scalability, which could make it difficult to handle a large number of transactions.

CENTRALIZED AND DECENTRALIZED

Centralized

- In a centralized system, all the rights are in the hands of the person organizing it.
- It can be closed anytime.
- Any change can be made in this.
- It is in the hands of the government.
- The government can stop currency whenever it wants.
- Any change can be made in this.
- Its price remains the same as the quantity of it a person has.

De-Centralized

- This is not under the control of any one person. Nor does the person making it have any control over it.
- It cannot be closed even if one wants to.
- No change can be made here even if one wants to.
- No government or individual has control over this.
- No government in any country or world can stop this.
- No change can be made here even if one wants to.
- Its price can increase at any time and by any amount.

Introduction To The UK Meta Tokenism

1 TOTAL SUPPLY - 25,00,00,000

2 TOKEN SYMBOL - UKMT

3 TOKEN CHAIN - BSC BEP-20

CONTRACT
